

2025 Facility Fee Rate Schedule

Here at IISD Experimental Lakes Area (IISD-ELA) we conduct scientific research to better understand the impacts of human activities on freshwater ecosystems and their watersheds. To achieve this, we provide access to the facility for visiting researchers and students. We strive to provide these services at a competitive cost, offering subsidized facility fees for accommodation, meals, field vehicles, and logistical and technical support to researchers.

This rate schedule comes into effect April 1, 2025, until March 31, 2026. Prior to arrival all visitors are required to read and acknowledge the operational policies of IISD-ELA directly related to their research.
